Supt. Powers has registered a solemn resolve that he will never again allow such sponges to be bought for the use of the clerical force of the exchange.

In speaking of the matter to a reporter he said:

"I am satisfied that the sponges came from a hospital, or some similar place. They had been cleaned superficially, but not disinfected so as to kill the germs with which they had become laden. When placed in water these again revived and multiplied. When the matter was brought to my attention I at once had the sponges destroyed. I do not think any contagion will result, for the sponges scarcely had time to spread any disease. But it is a lesson to me that I will not soon forget."
